

ALL THAT GLITTERS

Moissanite is one of the hottest trends in fine jewellery today and is the perfect choice for your mum this Mother's Day. A high quality jewel, moissanite has twice the fire and sparkle than that of fine diamonds.

Discovered more than 110 years ago in a meteorite that fell to earth, moissanite has now been recreated via advanced technology.

In collaboration with Charles and Colvard, the global creator of moissanite jewels, Moi Moi is the only retailer in Australia offering an extensive range of moissanite-only jewellery, just in time for Mother's day.

Moi Fine Jewellery is offering a special 20 per cent off all pendants.

At Moi Moi Fine Jewellery in Sydney's Queen Victoria Building, people can discover the unparalleled brilliance of this exceptional, lab-created jewel for themselves.

Indistinguishable from fine diamonds to the naked eye, moissanite is just a fraction of the cost. Moi Moi said that moissanite will be embraced by the smart, savvy, value-conscious Australian woman.

"The excitement that this jewel has created overseas has been phenomenal and the response so far indicates Australian women love moissanite as well," Lauren Chang Sommer, Moi Moi's managing director said.

For a limited time until Mother's Day, Moi
